Un-selected is correct

- ☒ SUSE

Correct

SUSE is an Enterprise Distribution

- ☐ BSD

Un-selected is correct

4. Which of the following are important facilities Linux distributions provide?

1 / 1 point

- ☒ Make sure all the different software on the system works together and is updated at once without conflicts

Correct

Keeping all products in harmony is difficult and critical.

- ☒ Make it easy to install Linux on a wide variety of hardware platforms

Correct

Install is much easier than it used to be.

- ☒ Provide updates, upgrades and bug and security fixes to end user systems in a timely and controlled fashion

Correct

Keeping up-to-date is a critical task.

- ☒ Form the connecting bridge between end users and upstream developers, making sure each is aware of the other's situations

Correct

They help developers improve products and make users' voice be heard.

5. Select all true answers:

1 / 1 point

- ☒ Linux borrowed heavily from basic UNIX features, but is not actually an implementation of the UNIX operating system.

Correct

UNIX is in the historical foundations of Linux.

- ☐ The development of Linux is determined by The Linux Foundation.

Un-selected is correct

- ☒ The term Linux really applies only to the core kernel, not the entire operating system.

Correct

There are many other non-Linux components to the operating system.

- ☐ Linux is one of the many varieties of the UNIX operating system.

Un-selected is correct

- ☐ Linux is a product of the Free Software Foundation GNU project.

Un-selected is correct
